June 8, 2022

Dear Resident,

The Village of Lake in the Hills is pleased to inform you that Woods Creek, located near your property, will receive restoration improvements this year. The project will begin on August 1, 2022 with conclusion of earthwork and creek improvements expected by December 31, 2022. Full project completion is scheduled for May 31, 2023 with final seeding and plant installation.

The intent of the Woods Creek Reach 11 Restoration Project is to stabilize 5,226 linear feet of streambank. The project will also restore 22 acres of wetland adjacent to the creek to native conditions. The restoration will serve to improve water quality, green infrastructure, wildlife, and pollinator habitat and provide opportunities for recreation and educational outreach.

The scope of work will include the removal of non-native vegetation, streambank restoration and stabilization, tree removal, and seeding of native vegetation.

All work will occur within Village-owned property. **Any existing non-Village owned features that are located within the Village property (i.e. sprinkler systems, landscape features, fire pits, dog fences, or other items that are privately owned and maintained) should be removed from the area to prevent damage during construction. The Village will not repair or replace any private property damaged during construction if left within the Village-owned parcel.**

V3 Companies of Woodridge, IL was awarded the contract for this work and will serve as the general contractor.

- Guy Fehrman, Superintendent of Streets, will be the Village's representative for the project. Guy can be reached at 847-960-7507 or [lfehrman@lith.org](mailto:lfehrman@lith.org).
- Darren Olson, Stormwater Enforcement Officer, will be the project manager. Darren can be reached at 847-823-0500 or [dolson@cbbel.com](mailto:dolson@cbbel.com).
- Doug Paulus will be the resident engineer, perform construction inspection, and act as the field liaison to residents and property owners. Doug can be reached at 847-823-0500 or [dpaulus@cbbel.com](mailto:dpaulus@cbbel.com).

Two open house meetings will be held to discuss the project in more detail. They are scheduled for Wednesday, June 22, 2022 and Thursday, June 30, 2022. Both open house events will be held from 5:30 p.m. to 6:30 p.m. at the Lake in the Hills Village Hall, located at 600 Harvest Gate. All are invited to come and learn more about the Woods Creek Reach 11 Restoration Project.

Additional information can be found online through the Village's website at [lith.org/Reach11](http://lith.org/Reach11).

Sincerely,

  
Tom Migatz  
Director of Public Works
